PROFILE

To obtain a challenging position as a **MERN Stack Developer** where I can utilize my skills in **MongoDB, Express.js, React, and Node.js** to design and develop efficient web applications. I aim to contribute to innovative projects, enhance my technical knowledge, and grow as a professional developer in a dynamic and progressive organization.

PROJECTS

ShareX – File Sharing Manager

Java | Spring | Socket Programming | QR Code | Networking

- Developed a Java desktop application for secure file sharing using QR codes, links, and password protection.
- Implemented Java Swing GUI and multithreading for a smooth user experience.

AI Image Generator & Editor

HTML | CSS | JavaScript | Hugging Face API

- Built a web app that generates images from text prompts using Hugging Face models.
- Added real-time editing features like resize, crop, and filters with a responsive design.
